Remember, this is not a vote, but rather an opportunity for BLM to make sure a range of reasonable alternatives has been developed, that objectives and management actions will achieve the desired future conditions and that the issues are addressed.

Please use additional pages as necessary.

**What additional alternative(s) should we address? What objectives and management actions have we missed to support this alternative?**

**What alternative(s) can you “live with” and why? Please be as specific as possible.**

**What alternative(s) do you believe are not reasonable? Why not? What changes would you suggest to make them reasonable? Please be as specific as possible.**

**What (if any) issues, concerns, or desired future conditions have NOT been addressed by the alternatives? How would you suggest the BLM address this/these? Please be as specific as possible.**
